SUMMARY

Results-driven **Full Stack Developer** with hands-on experience building scalable web applications using **Laravel, PHP, React.js, Node.js, MySQL, and MongoDB**. Passionate about building clean, user-focused applications, solving real-world problems, and continuously learning modern web technologies.

EDUCATION

Darshan University
B.Tech in Computer Engineering

Rajkot, India
Aug 2023 – Expected Apr 2027

EXPERIENCE

Full Stack Developer

TechMatrix

Jul 2026 – Present

Rajkot, Gujarat, India

- Developing and maintaining full-stack web applications using **Laravel, PHP, React.js, MySQL, Tailwind CSS, and REST APIs**.
- Building responsive user interfaces, implementing backend features, integrating APIs, fixing bugs, and optimizing application performance.
- Collaborating with developers using **Git** while following clean coding practices and MVC architecture.

Teaching Assistant – Web Technology

Darshan University · Internship

Dec 2024 – Apr 2025

Rajkot, Gujarat, India

- Assisted in delivering web technology curriculum covering **React.js, Node.js, HTML, CSS, and JavaScript**; supported students in building full-stack projects.
- Conducted doubt-clearing sessions, reviewed assignments, and reinforced best practices in REST APIs, component-based architecture, and clean coding.

PROJECTS

Box Cricket Booking Website | *React, Node.js, Express, MongoDB, Razorpay*

[GitHub](#) | [Live](#)

- Built a full-stack venue booking platform with real-time slot reservation, JWT authentication, role-based access, and Razorpay integration.

Chess Results Platform | *React, Node.js, Express, MongoDB*

[GitHub](#) | [Live](#)

- Built a tournament management platform with automated results, player invitations, and real-time updates.

Plagiarism Detection System | *Next.js, Node.js, Express*

[GitHub](#) | [Live](#)

- Built a cosine-similarity engine reducing review time and improving performance through deployment optimizations.

Billing & Stock Management System | *React, Node.js, Express, MongoDB*

[GitHub](#) | [Live](#)

- Developed a provision store management system with inventory, customer management, and bill generation.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), Python, C, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Laravel, Node.js, Express.js, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, Firebase

Tools & Technologies: Git, GitHub, Composer, Postman, Vercel, Razorpay

Concepts: MVC Architecture, REST APIs, CRUD Operations, Authentication, Responsive Design
